TO CONSIDER REGULAR AND GUARANTEED DEPARTURES MEAN

IMPORTANT NOTE .-We remind you that the circuits in this manual are Regular and guaranteed departure programs from 2 pax, this means that clients from different operators are grouped upon arrival at the destination, to complete the circuit all together in one means of transport. common (car, minivan, van, minibus, minibus or bus, depending on the number of participants) and with different categories of hotels, so for the good of all of you, we ask for maximum collaboration and punctuality in the collection and distribution of clients in each hotel. The hotels indicated are for guidance purposes, since it is YOTA TT who decides according to the contracts/reservation situations in which hotel of each category the group will be accommodated.

The packages / circuits appear with fixed prices and do not allow deduction of nights
Transfers that do not coincide with the tour date must be paid as EXTRA as well as transfers for those clients of
PRE and POST TOURS when they make ADDITIONAL nights

Important note: The 4x4 jeeps in Wadi Rum are hired at the visitor center at the time of admission and the vehicle cannot be selected since the jeeps authorized by the Wadi Rum Autonomous Authority queue at the visitor center and Our guide is obliged to take the vehicles that he is assigned, we appreciate telling his clients about this since sometimes there is a big difference between the models that the group uses (closed Jeeps or open pickups) and/or the condition of the vehicle itself can be very good, good or a somewhat worn out old car.

ARRIVAL/DEPARTURE TRANSFERS WHEN A SINGLE CUSTOMER TRAVELS

ALL GUARANTEED TOURS ARE CALCULATED FOR A MINIMUM OF 2 PAX TRAVELING TOGETHER. WHEN ONLY ONE CUSTOMER TRAVELS AND ARRIVES BY PLANE OR LAND BORDER AND THE CIRCUIT IS OPERATIONAL (DUE TO THE ACTIVITY OF OTHER CUSTOMERS WITH DIFFERENT ARRIVALS FROM AIRPORT OR LAND BORDER OR ANY OTHER MEANS) THIS CUSTOMER MUST PAY FOR TRANSFERS FOR 2 PAX IF NOT THERE ARE OTHER CUSTOMERS TO CARRY OUT THE TRANSFER ON THEIR SAME FLIGHTS OR ARRIVAL/DEPARTURE TRANSPORTATION. IF AFTER YOUR BOOKING, WE RECEIVE MORE CUSTOMERS FOR THAT FLIGHT/ARRIVAL, WE WILL REFUND THE DIFFERENCE PREVIOUSLY INVOICED.

IMPORTANT NOTE ABOUT HOSPITALITY IN PETRA

The hotel situation in Jordan is generally acceptable and quite good in the cities and tourist areas of Amman, Aqaba and the Dead Sea, especially in the higher category hotels. But we want to draw your attention and we believe it is important to inform you, regarding the hotels in the city of Petra. Petra (Wadi Musa) is a city-town and a place of passage for a single night, which receives thousands and thousands of tourists every year to visit its spectacular architectural site, where there is little hotel capacity and a great demand: hostels, pensions, hostels, small local or family hotels... and some hotels, few and small with very little capacity... 15, 20, 30 rooms of 2, 3 and 4* (First) (official category, which do not correspond to international standards) and only two or three acceptable 4* and 5* (Superior) category hotels but also with quite limited capacity in number of rooms, to meet the high demand needs of everyone. Hotels endure a significant daily movement of continuous arrivals and departures, which means that their maintenance is not always the best and desired. Our job as local operators is to obtain the most acceptable for our clients and at reasonable prices within the hotel category selected in their purchase, but sometimes it is very difficult to achieve it, so we ask for your understanding. With just one night's accommodation in Petra, we consider more than enough time to visit the architectural site properly. Once the visit has been made, we recommend continuing your circuit to other points of interest and with better hospitality.

IMPORTANT NOTE ABOUT CAMPS IN WADI RUM

It is important that they know and let their clients know that the camps in the Wadi Rum desert are simple establishments, with basic services and not easy to maintain, in terms of air conditioning (hot and cold), as well as reminding them and Let them know that the desert sand sneaks into every corner, making it difficult to maintain both inside and outside (winds, sand storms, lack of rain...etc....) These establishments are basically powered by solar panels and/or diesel generating equipment and in both cases, they may not be enough to heat or cool the stores, as well as to maintain a significant amount of hot water, sufficient for showers. clients, who are usually all at the same time. All the camps we use have full bathrooms. The kitchens and food are correct, but there is not much to choose from, sometimes being repetitive. We also inform you that the sale of alcoholic beverages is currently not permitted in the desert camps. The capacities of the camps range from 15 or 20 tents to a maximum of 60 tents and those that have capsules or Martian tents, or Igloos... by regulations (with some exceptions) usually have 40 standard tents and a maximum of 20 Capsules. The camps DO NOT HAVE AN OFFICIAL CATEGORY and in our programming, both for clients who travel in first or higher category, the camp or the different camps that we use, are for all clients, without taking into account what they have purchased from the beginning. and in standard stores. Those clients who wish to stay in capsules must make the request and pay the corresponding supplement. Be positive, don't focus on the details...enjoy that unique spectacle that is a night under the stars in one of the most beautiful deserts in the world. Thanks for your understanding.

The Jordanian enclave of Bethany was opened to visitors in 2000, and Pope John Paul II attended its inauguration as a sign of his recognition by the Vatican. Baptismal Site of Jesus "**Bethany beyond the Jordan**" (Al-Maghtas) The archaeological site located on the eastern bank of the Jordan River, about 9 km north of the Dead Sea, is of immense importance to Christianity because it is recognized as the place where Jesus of Nazareth was baptized by John the Baptist. Continue to Madaba to visit the Orthodox Church of St. George, where the first mosaic map of Palestine is located. Continue to Mount Nebo to admire the panoramic view of the Jordan Valley and the Dead Sea from the mountain. Baptismal Site of Jesus "**Bethany beyond the Jordan**" (Al-Maghtas) The archaeological site located on the eastern bank of the Jordan River, about 9 km north of the Dead Sea, is of immense importance to Christianity because it is recognized as the place where Jesus of Nazareth was baptized by John the Baptist. Continue to Madaba to visit the Orthodox Church of St. George, where the first mosaic map of Palestine is located. Continue to Mount Nebo to admire the panoramic view of the Jordan Valley and the Dead Sea from the mountain.
